Skills

- solidity
- JavaScript
- TypeScript
- Html/CSS
- React js
- Node js
- Express js
- My SQL
- MongoDB
- Leadership
- Teamwork
- Problem-solving

Courses & Training

- **THE ULTIMATE FULL-STACK JAVASCRIPT DEVELOPER BUNDLE |** Code with Mosh

- **Complete SQL Mastery |** Code with Mosh

- **JavaScript |** Code with Mosh

- **Data Science Foundations |** Codecademy

Languages Spoken

- **Urdu**: Native
- **English**: Proficient

Academic History

Computer Science
Bachelors | University of Engineering and Technology, Lahore

- 2021-2025

Projects

- **E-COMMERCE**
  - Developed a full-fledged e-commerce application using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Material UI. Implemented features such as product listings, user authentication, shopping cart, and payment gateway integration.
- **NFT market place**
  - Developed a fully functional NFT marketplace project using Solidity and OpenZeppelin libraries, enabling minting, trading, and collection creation of NFTs. Implemented secure smart contracts with features like ownership transfer, random ID generation, and metadata management. Deployed and tested on Ethereum mainnet fork using Remix, ensuring scalability and compliance with blockchain standards
- **Sentiment Analysis**
  - Implemented an sentiment analysis project using advanced NLP techniques, neural networks, and machine learning. Analyzed customer reviews to determine sentiment towards specific aspects of products or services, providing detailed insights for business improvements.
